(over: see list of Common Themes in Literature)

Read: These are a just a few of the *many* possible literary subjects and themes. The point to remember is that a subject is not a theme: a subject is some dimension of the human condition examined by the work; a theme is a statement, direct or implied, about the subject. The themes about the subjects on the list are still fairly general. As a critical writer discussing a particular literary work, you'll need to bring your observations about theme closer to the work.

Write: Choose a word/paragraph from the text to focus upon. In your first sentence, make a direct or implied statement about the subject. In your second sentence, then, comment on the word/paragraph and the statement thematically (this is the "So What?" about the idea). In other words, expand the meaning of the word/paragraph with its connection to the theme of the essay, novel, poem or play.

I understand that I am enrolling in a two (2) semester class and that **I will not be permitted to drop the class at any time**. I understand this is a college level class that usually requires one to one and a half hours of homework each night. I understand that late work for the summer assignment will be deducted 10% per week up until the end of the first quarter. I understand that summer work will not be accepted for credit after that deadline. I will ask the honors or AP teacher for assistance.

I am aware that I am required to take the AP exam (if I am in 11th or 12th grade) and the cost will be approximately \$84.00 per test. I also understand that fee reductions may be available, based on the Federal School Lunch Program, but it is my responsibility to inquire about and discuss fee reductions with the AP coordinator. I understand that if for any reason I do not to take the AP exam (in 11th and 12th grade), I will be given *regular credit* (non-weighted) not Advanced Placement credit for that entire year's English class.
